- 2.- Que, AACSB es la principal asociación que certifica los estándares de calidad en la educación de las Escuelas de Negocios, a nivel mundial, contribuyendo en el proceso continuo de revisión y mejoras. Estas actividades organizadas por AACSB International están diseñadas y orientadas a Decanos, administradores y directores de investigación responsables de la gestión de sus Escuelas, así como destacados académicos y colaboradores empresariales, por lo que es relevante la participación de un representante de la Facultad de Economía y Negocios como una oportunidad de establecer contacto con las más importantes Universidades de Negocio del mundo.
- 3.- Que, dicho requerimiento fue autorizado por la Jefa de Gabinete de Decanato, según consta en el Formulario de Solicitud de Compra y Disponibilidad Presupuestaria, de fecha 5 de marzo de 2018, por hasta US\$1.990.- (mil novecientos noventa dólares americanos), impuestos incluidos, más gastos correspondientes a la transferencia electrónica.
- 4.- Que, de acuerdo a lo señalado en el artículo 51, del Reglamento de la Ley de Compras, los tratos directos que se realicen en virtud de lo dispuesto en el artículo 10 requerirán de un mínimo de tres cotizaciones de diferentes proveedores, con excepción de aquellos tratos o contrataciones directas contenidas en los números 3, 4, 6 y 7.

5.- Que, el artículo 10, establece las circunstancias en que procede la Licitación Privada o Trato o Contratación Directa, con carácter de excepción, según indica, a su turno el numeral 4 contempla la posibilidad de dicho procedimiento de contratación: "*Si sólo existe un proveedor del bien o servicio*"; asimismo, lo establecido en el numeral 7, en la letra e) "*cuando la contratación de que se trate sólo pueda realizarse con los proveedores que sean titulares de los respectivos derechos de propiedad intelectual, industrial, licencias, patentes y otros*".

6.- Que, las circunstancias previstas por el legislador para autorizar la contratación bajo la modalidad de trato directo, que se indican en los numerales anteriores, concurren respecto de AACSB INTERNATIONAL, asociación reconocida a nivel internacional por tratarse de un organismo especializado en acreditaciones de Escuelas de Negocios, además por ser quien lidera y coordina el Foro de Impacto y la Conferencia Internacional y Reunión Anual (ICAM 2018), como se puede constatar en [www.aacsb.edu/seminar/2018/impact-forum-april-honolulu](http://www.aacsb.edu/seminar/2018/impact-forum-april-honolulu) y en [www.aacsb.edu/events/conference/2018/icam](http://www.aacsb.edu/events/conference/2018/icam), por lo que puede considerarse proveedor único, al ser titular exclusivo de derechos de propiedad intelectual y/o industrial.

7.- Que, debido a las particulares características de la contratación y la empresa que provee el servicio requerido corresponde a una entidad extranjera no inscrita en el registro de proveedores del Estado, se hace imposible para esta Facultad efectuar el proceso de compras a través del portal [www.mercadopublico.cl](http://www.mercadopublico.cl), debiendo gestionarse en conformidad a lo establecido por el artículo 62 N° 6 del Decreto 250 de 2004 del Ministerio de Hacienda.

8.- Que, atendiendo lo descrito en el considerando previo y a que el monto convenido a pagar por los servicios no supera las 1.000 UTM, no se estima necesaria la suscripción de contrato entre las partes, sin perjuicio de lo cual se entenderá como parte integrante del presente acto y de la ejecución de la prestación, los términos de referencia y la propuesta del proveedor adjunta.

Preparing for AACSB accreditation is a multi-step process where institutions determine their alignment with AACSB standards while developing a strategic plan that sets the course toward full compliance. SPOL is a cloud software platform designed specifically to meet these needs. In this session, we will demonstrate how to manage the AACSB accreditation process using SPOL. You'll learn how to conduct self-assessments, and how to develop a strategic plan specifically for AACSB accreditation compliance.

**(C3) Data Analytics: Challenges and Opportunities ( 11:15am - 12:30pm )**

Business schools have been gearing up to meet market demand for analytics graduates. Yet, many questions arise. How technical should the programs be? How can students who come from a variety of backgrounds learn both business and analytics? What kinds of analytics jobs should the programs prepare students for? We provide some answers based on experiences at USF's Muma College of Business and the Asian Institute of Management at the undergraduate, MS, MBA and executive education levels. While opportunities for such programs abound there are challenges to overcome. Recruiting highly talented faculty, bringing departments together, differentiating from programs in other disciplines and staying true to a business school's mission are some major ones. This session also provides guidance to effectively overcome these challenges.
